Computer Skills	<div><div></div></div>
Content Writing	<div><div></div></div>
Digital Marketing	<div><div></div></div>

Hobbies

- Drawing
- Reading Biographies

Projects

Automated Online Session Monitoring System Using Machine Learning and Computer Vision (Final Year Project)

2023-present

The goal of this project is to construct an autonomous monitoring system that addresses the lack of monitoring and assessment of learning activities during online sessions by using computer vision and machine learning. This research led to the design and construction of an autonomous monitoring system that shows real-time monitoring reports using the gamification idea.

Extracurricular Activities
